Logging In

Note: you will only be able to log in once you have activated your profile. Refer to the “**Activating your profile**” section for steps on how to do this.

To log in to Verizon Enterprise Center:

1. Go to <http://www.verizonwireless.com/business> .
2. Enter your credentials in the “**Sign In**” field or select “**Sign In**”

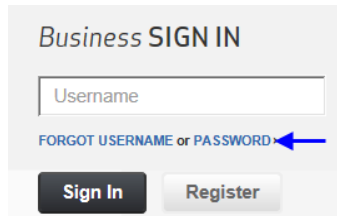

Or go directly to : <https://sso.verizonenterprise.com> and enter your username. Enter your “**Username**” and click **Sign In**

3. If this is your first time logging in, you will be automatically taken through the security authentication steps. This involves accepting the Terms and Conditions, creating three secret questions and answers, registering your device, selecting a security image and setting up an address to receive a one time passcode. A one time passcode can be used in the event you forget your login credentials.

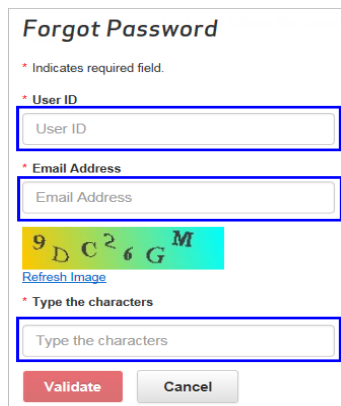

Forgot Password

1. Click on the “**Forgot Password?**” link.

The image shows a 'Business SIGN IN' form. It has a 'Username' input field. Below the input field is a link that says 'FORGOT USERNAME or PASSWORD' with a blue arrow pointing to it. At the bottom of the form are two buttons: 'Sign In' and 'Register'.

2. Enter the User ID, the e mail address on file for that User ID and the Captcha characters and click **Validate**

The image shows a 'Forgot Password' form. It has a title 'Forgot Password' and a note '* Indicates required field.' Below this are three input fields: 'User ID', 'Email Address', and 'Type the characters'. The 'Type the characters' field is a captcha field with a background image showing the characters '9 D C 2 6 G M'. Below the captcha field is a 'Refresh Image' link. At the bottom of the form are two buttons: 'Validate' and 'Cancel'.

3. If the information matches, you will be prompted to answer one of your secret questions.

Forgot Password

You are required to answer 1 question correctly.
Please enter the answer to your secret question.

* Indicates required field.

* What is your dream job?

Answer

Answer Cancel

4. Select the desired delivery method to receive a one time passcode by clicking on the icon

Request One Time Passcode ?

Select an icon to the right of the contact method to get a One Time Passcode.

Company Settings

These settings are accessible to the Administrator and Analyst user roles. Note: Analyst will have limited access.

Company Profile

This page is divided into three sections:

- **Company Information** - provides your company name, and the amount of accounts and wireless numbers your company has. Note: if you also have access to Internet and Phone (landline) accounts, you will see them here as well
- **My Business Account Information** – provides the total amount of users that have been enrolled in My Business Account for your company. This section also provides the amount of each User Role for your company
- **Contact Information** – provides the name, phone number, and email address of your company's SPOC or Wireless Program Manager. The "Support Center" row contains the number to Verizon Wireless Customer Support

Billing Accounts

In the “**Settings**” dropdown, click on the “**Billing Accounts**” link to go to the “**Manage Billing Accounts Users**” page. Note: Only users who have been assigned the “**Administrator**” User Role will have access to this link.

From this page you can:

- Grant access/assign users to the entire Billing Account (default level), individual accounts, or wireless numbers.
- View Billing Accounts to ensure all wireless numbers are accounted for.

To assign a user to a Billing Account:

1. Click on the “**Settings**” dropdown and go to “**Billing Accounts**”.

2. Set their position level by clicking on the **account number** or **wireless number** you want to assign the user.

Note: you can click on “**Default**” to assign them to the entire Billing Structure. This will give them access to all accounts and wireless numbers. Your position level will appear above the “**Details**” tab.

3. Click on the “**Users**” sub-tab in the right hand pane.

4. To assign the new user, change the “**View**” drop down to “**Unassigned**”. Note: “Unassigned” users are those who have not been assigned to any accounts. Here you may also search by “**First Name**”, “**Last Name**”, or “**User Name**” by selecting one of these from the “**Filter**” dropdown.

5. Click the “**Refresh**” button and you will see the person’s name appear on the list.

6. **Check the box** next to the new user's name, and click on the **"Assign"** button. You have now successfully assigned a user. Note: you can follow the same steps above to assign access to an individual wireless number or to the default level. When a user is assigned to the default level, they have access to all current and future accounts.

Paperless Billing

From the “**Manage Paperless Bill**” page, an administrator can elect to choose paperless billing. This means you will not receive monthly bills by mail. PDF versions of your bills can be accessed under the “**Statements**” tab.

To select paperless billing for one or more accounts:

1. Click on the “**Paperless**” link in the “**Settings**” dropdown

2. Indicate the accounts you would like to be paperless by selecting the checkbox in the paperless column and click the “**Submit**” button.

Manage Paperless Bill

Company Structure

A Company Structure allows you to organize your account numbers and wireless numbers, in a way that makes sense for your company, in order to view billing information.

Note: only users who have been assigned the “**Administrator**” User Role and granted “**Default**” access to the Billing Accounts will be able to create and maintain the Company Structure.

For in-depth instructions on creating and maintaining a Company Structure, refer to the How to Use Guide: Understanding a Company Structure located in the “**How to Use Guides**” section in the “**Support**” tab.

Company Users

From the “**Company Users**” page, Administrators can create new users, select their User Role, and assign their level of access. Note: The “**Company Users**” link is only available to those who have been assigned the “**Administrator**” User Role.

To set up a new user:

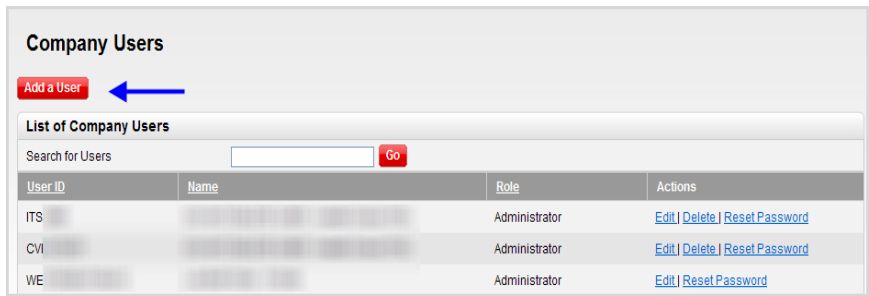

1. Click on the “**Settings**” drop down.

2. Go to the “**Company Users**” page.

3. Click on the red “Add a User” button on the upper left-hand side of the page.

4. Enter the new user’s information. Make sure to fill out all fields. Under the “Role” drop down, select a role in the “Role” dropdown, and click “Submit”. Click on the “Learn More” link next to the “Role” dropdown for details on access information or each User Role. Note: Username and Password must contain at least eight characters, and the password must contain both numbers and letters. **You must notify the new user of their username and password.**

Add Company Users

User ID * User ID must be at least 6 characters.

New Password * Password must contain at least 8 characters, including a number.

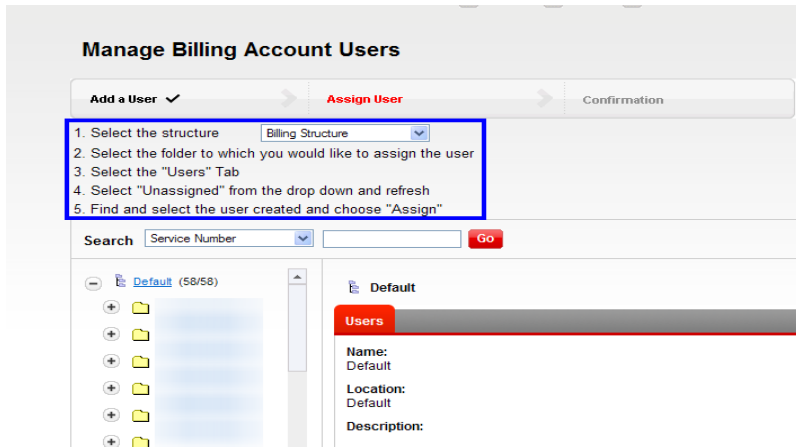

Confirm New Password *

User Type * Wireless
(Must select at least one)

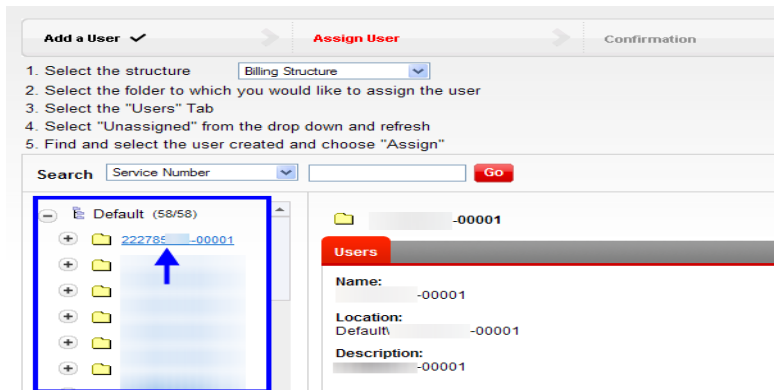

Note: . A pop up screen will appear if you are creating a user with purchasing rights, to continue you must click accept within the notification.

5. Assign the user to a structure. Five steps help guide you through assigning the user on beginning on this page. Step 1, assign the user to the Company or Billing Structure using the dropdown menu. For this example we will assign the user to the Billing Structure

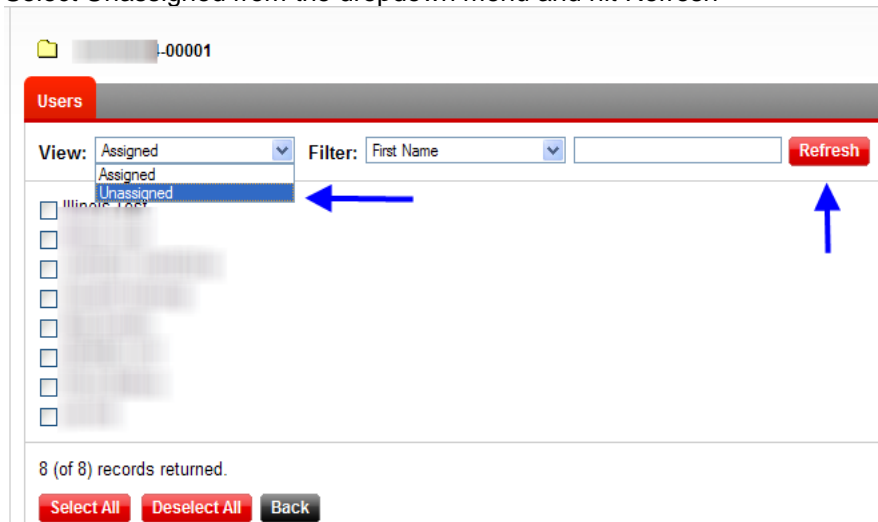

6. Click on the folder/account number you would like to assign the user to

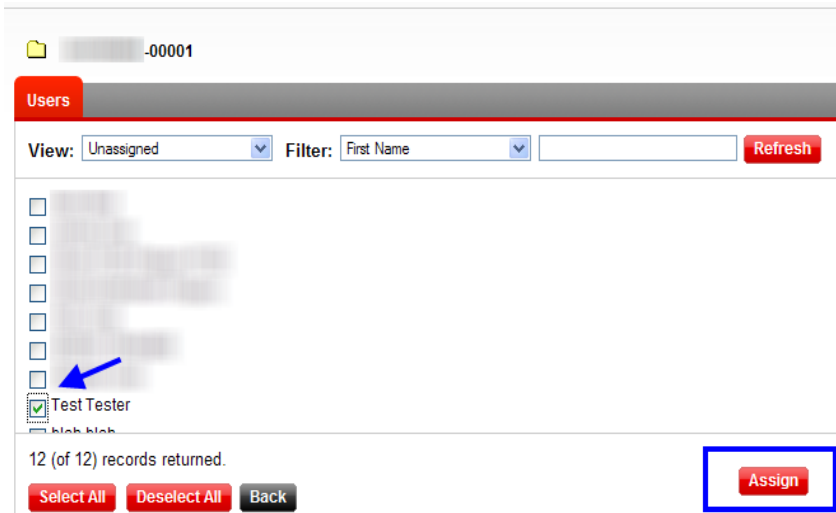

7. Click on the Users tab

8. Select Unassigned from the dropdown menu and hit Refresh

9. Locate the user you are adding, select the checkbox and “Assign”. You have completed adding and assigning a new user. Note: You must notify the user of their username and password.

Understanding User Roles

When creating a new user, you must assign them to a User Role. A role determines which functionalities a user will and will not have access to, within My Business Account. Below is a list of possible User Roles and a description of which functionalities each will have access to.

1 Add Company User

First Name*

Last Name*

Phone Number

Email Address*

Role*

User ID*

Password*

Confirm Password*

Note: If Administrator, Analyst, Maintain, or Maintain and Pay user role is selected you will see an additional option to manage Push to Talk, Group Communication and other custom applications.

Access Rights

- Bill on Behalf Of
- Machine to Machine
- Microsoft Office 365 (Limited Access) [Learn More](#)
- Name ID Services
- Push To Talk

Software Access Rights

- Voice Cypher
- Verizon MDM

- **Primary Contact** - Users have access to the complete menu structure. This user will have full maintenance and pay privileges for all the accounts enrolled in My Business Account.
Note: there can only be one Primary Contact, this is often referred to as the SPOC.

There are a variety of user roles available in My Business Account. Some are roles that have full access to all transactions and online options, others are limited to select options.
