Packaging contents
The following items are included in your package.

Microphone components

Charging the CPW90

1. Put the CPW90 on the charger cradle
2. Connect the micro USB port on the charger cradle to the USB port on the CP960 conference phone using a 0.3 m USB cable

When charging, the battery LED indicator on the CPW90 glows red. When the battery capacity reaches 100%, the battery LED indicator on the CPW90 will glow green.

The CPW90 starts up automatically when charging, or you can long-tap the Mute button on the CPW90 for three seconds to turn it on.

Note: Please charge the microphones fully prior to first use and make sure you charge them when they are not in use.

Registering the CPW90 to the CP960 conference phone
If the CPW90 has registered with the CP960 conference phone, you can skip this section.

If the CPW90 is not registered with the CP960 conference phone, you should register the CPW90 to the CP960 conference phone. The CPW90 works as the audio input device of the CP960 conference phone.

To register the CPW90 to the CP960 conference phone:
1. Tap > Wireless Microphone >
2. Turn on the CPW90

The CPW90 enters the registration mode automatically, and the mute LED indicator on the CPW90 flashes yellow.

The CPW90 registers with the CP960 conference phone automatically.

If the registration is successful, the mute LED indicator on the CPW90 goes out and the touch screen of the CP960 conference phone prompts the CPW90 for the following information: battery, work time and standby time.

Note: You can connect up to two CPW90 microphones to a CP960 conference phone.

LED instruction
There are two indicators on the CPW90. The indicators display the CPW90 work status.

Mute LED indicator on the CPW90:

<table>
<thead>
<tr>
<th>LED status</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Solid green</td>
<td>• The phone enters the predialing screen</td>
</tr>
<tr>
<td></td>
<td>• The phone is in a call and unmuted</td>
</tr>
<tr>
<td>Slowly flashing red</td>
<td>• The phone is receiving an incoming call</td>
</tr>
<tr>
<td>Solid red</td>
<td>• The phone is muted</td>
</tr>
<tr>
<td>Fast flashing yellow</td>
<td>• The CPW90 is in the registration mode</td>
</tr>
<tr>
<td>Slowly flashing yellow</td>
<td>• The CPW90 has registered with the phone, but the CPW90 is out of range</td>
</tr>
<tr>
<td></td>
<td>• The CPW90 has registered with the phone, but the CP960 is turned off</td>
</tr>
<tr>
<td>Flashing red and green alternately</td>
<td>• The phone is searching for the CPW90 that has registered with it</td>
</tr>
<tr>
<td>Off</td>
<td>• The phone is idle</td>
</tr>
</tbody>
</table>

Battery LED indicator on the CPW90:

<table>
<thead>
<tr>
<th>LED status</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Solid green for 1 second and then off</td>
<td>• The CPW90 is turned on</td>
</tr>
<tr>
<td>Solid green for 3 seconds and then off</td>
<td>• The phone is idle</td>
</tr>
<tr>
<td>Solid green</td>
<td>• The CPW90 is fully charged</td>
</tr>
<tr>
<td>Solid red</td>
<td>• The CPW90 is being charged</td>
</tr>
<tr>
<td>Fast flashing red 3 times and then off</td>
<td>• The battery capacity is too low to turn on the CPW90</td>
</tr>
<tr>
<td>Slowly flashing red</td>
<td>• The battery capacity is less than 10%</td>
</tr>
<tr>
<td>Off</td>
<td>• If you tap the mute button and the battery LED indicator on the CPW90 is still off, it means the CPW90 is turned off</td>
</tr>
</tbody>
</table>
Placing the CPW90

The CPW90 is a wireless expansion mic that can work as the audio input device of the CP960 conference phone. It supports 360-degree audio pickup at a radius of up to 9.5 feet. The CPW90 has a rubber pad on its base to prevent it from sliding. You can place the CPW90 on a conference table. To ensure optimal voice quality, place the CPW90 on a stable surface and keep it away from obstacles so that it can achieve the best performance.

Muting or unmuting the CPW90

When the CPW90 works as an audio input device of the CP960 conference phone and the CP960 conference phone is in a call, you can tap the Mute button on the CPW90 to mute or unmute the CPW90.

Frequently asked questions

How do I turn off the CPW90?

You should long-tap the Mute button on the CPW90, until the battery LED indicator on the CPW90 glows red for three seconds and then goes out.

How do I find the CPW90 that has registered with the CP960 conference phone?

- Tap > Wireless Microphone
- Select the desired microphone, and then tap Find. The mute LED indicator on the CPW90 flashes red and green alternately

How do I register the CPW90 to another CP960 conference phone?

- Tap > Wireless Microphone > +
- Charge the CPW90
- Long-tap the Mute button on the CPW90 for five seconds. The CPW90 enters the registration mode. And the mute LED indicator on the CPW90 fast flashes yellow
- The CPW90 registers with the CP960 conference phone automatically

Note: The CPW90 can only be registered to one CP960 conference phone. If you register the CPW90 to another CP960 conference phone, the CPW90 will deregister from the previous CP960 conference phone automatically.

How do I deregister the CPW90?

- Tap > Wireless Microphone
- Select the desired mic, and then tap Detail
- Tap Unbind to deregister the CPW90
Regulatory notices

Operating ambient temperatures
• Operating temperature: +32° to 104° F (0° to 40° C)
• Relative humidity: 5% to 90%, noncondensing
• Storage temperature: -22° to +160° F (-30° to +70° C)

Warranty
Our product warranty is limited only to the unit itself, when used normally in accordance with the operating instructions and the system environment. We are not liable for damage or loss resulting from the use of this product, or for any claim from a third party.

Explanation of the symbols
DC symbol
\[\text{\textbullet\textbullet\textbullet\textbullet}\] is the DC voltage symbol.

WEEE Warning symbol
\[\text{\textx}\] To avoid the potential effects on the environment and human health as a result of the presence of hazardous substances in electrical and electronic equipment, end users of electrical and electronic equipment should understand the meaning of the crossed-out wheeled bin symbol. Do not dispose of waste electrical and electronic equipment (WEEE) as unsorted municipal waste and have to collect such WEEE separately.

Restriction of Hazardous Substances Directive (RoHS)
This device complies with the requirements of the EU RoHS.

Safety instructions
Save these instructions. Read these safety instructions before use!

General requirements
• Before you install and use the device, read the safety instructions carefully and observe the situation during operation
• During the process of storage, transportation and operation, please always keep the device dry and clean, and avoid collision
• Please do not attempt to dismantle the device by yourself. In case of any discrepancy, please contact the appointed maintenance center for repair
• Please refer to the relevant laws and statutes while using the device. Legal rights of others should be respected as well

Environmental requirements
• Place the device in a well-ventilated place. Do not expose the device to direct sunlight
• Keep the device dry and free of dust
• Do not place the device on or near any flammable or fire-vulnerable object, such as rubber materials
• Keep the device away from any heat source or open flame, such as a candle or an electric heater

Operating requirements
• Do not let a child operate the device without guidance
• Do not let a child play with the device or any accessory, to avoid accidental swallowing
• Please use the accessories provided or authorized by the manufacturer only
• The power supply of the device shall meet the requirements of the input voltage of the device. Please use the provided surge-protection power socket only
• Before plugging or unplugging any cable, make sure that your hands are completely dry
• Do not spill liquid of any kind on the product or use the equipment near water, for example, near a bathtub, washbowl, kitchen sink, wet basement or swimming pool
• During a thunderstorm, stop using the device and disconnect it from the power supply
• If the device is left unused for a long time, disconnect it from the power supply and unplug the power plug
• When there is smoke emitting from the device, or an abnormal noise or smell, disconnect the device from the power supply, and unplug the power plug immediately
• Contact the specified maintenance center for repair
• Do not insert any object into equipment slots that is not part of the product or auxiliary product
• Before connecting a cable, connect the grounding cable of the device first. Do not disconnect the grounding cable until you disconnect all other cables

Battery requirements
• Do not immerse the battery into water, which could short-circuit and damage the battery
• Do not expose the battery to an open flame or leave the battery where it could be subjected to extremely high temperatures, which could cause the battery to explode
• Do power the handset off before removing the battery
• Do not try to use the battery for the power supply of any device other than this handset
• Do not open or mutilate the battery; the contents are corrosive and may cause damage to your eyes or skin
• Use only the rechargeable battery pack delivered with the handset or those rechargeable battery packs expressly recommended by Yealink. Defective or exhausted batteries should never be disposed of as municipal waste. Return old batteries to the battery supplier, a licensed battery dealer or a designated collection facility

Cleaning requirements
• Before cleaning the device, disconnect it from the power supply
• Use a piece of soft, dry and anti-static cloth to clean the device
• Keep the power plug clean and dry

FCC statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Radiation exposure statement
This equipment complies with FCC exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

Technical support
For additional information, please refer to the CP960 Admin Guide in the One TalkSM support site or visit verizonwireless.com/support/one-talk for additional help.
