About Your Phone

Note: Devices and software are constantly evolving and may change without notice. The screen images and icons you see here are for reference only.

Setting Up Your Phone

Your phone comes with the SIM card pre-installed.
Optional: Insert a microSD Card
1. With the phone facing up, insert the tool that comes with your phone into the small hole on the card tray and pop out the tray.
2. Turn the tray over and insert the microSD card into the tray with the gold contacts facing down.
Note: The microSD card is sold separately.
3. Turn the tray back over and carefully insert it back into the phone.

Charge Your Phone
Before turning on your phone, charge it fully.
1. Insert the small end of the USB cable into the USB/Charger Port.
2. Insert the other end into the power adapter, and plug the power adapter into an electrical outlet.

Warning: Please use only an approved charging accessory to charge your phone. Improper handling of the charging port, as well as the use of an incompatible charger, may cause damage to your phone and void the warranty.
