Device Functions

Setting Up Your Gear S2

Step 1. Charging the Gear S2
1. Carefully place the Gear S2 on the wireless charging dock and connect the dock to a power supply.

Caution! Use the Samsung charger that came with your device. Use of other chargers may damage the device and void the warranty.

Step 2. Turning Your Gear S2 On and Off
1. To turn ON the Gear S2, press and hold the Power/Home button.
2. To turn OFF the Gear S2, press and hold the Power/Home button and tap Power off.

Step 3. Pairing your Gear S2 to a smartphone
1. To connect your Gear S2 to your smartphone, install the Samsung Gear app on your phone.
2. For non-Samsung smartphones:
   - Download the Samsung Gear app from the Google Play™ store or the App Store.
   - Compatible with Android 4.4 and later with 1.5GB RAM. Some features may not be available. For best compatibility, connect with Samsung Galaxy devices.
3. For Samsung smartphones:
   - Open Galaxy Apps or visit apps.samsung.com/gear and download the app.
   - Gear S2: Make sure your Gear S2 is turned on.
   - Smartphone: Open the Samsung Gear app.
   - Smartphone: Turn on Bluetooth.

Activating the Gear S2
Once you have connected the Gear S2 to your smartphone, tap Activate on your Gear S2 and follow the instructions to set it up for standalone use.

Home Screen
1. From the home screen, press the Power/Home button at anytime to return to the home screen.

Moments Bar
From the home screen, swipe down and tap the notification panel. From here you can view your phone calls, adjust volume, display brightness and turn on/off Do not disturb.

Opening the Apps screen
1. From the home screen, press the Power/Home button.
2. Tap an app icon to open the app.

Using the Bezel
Rotate the Gear S2 bezel to the left to view messages and notifications, or to the right to see Settings and Apps.
Viewing a Message
1. From the home screen, rotate the bezel to the left to view notifications.
2. Tap Messages and scroll up to view your messages.
3. To reply to a message, tap.
4. Enter your message and tap to send.

Customize
• Connected smartphone: Tap Apps to Samsung Gear.
• Notification settings: Tap notifications from your smartphone.
• Apps layout: Tap to add, remove, and organize apps.
• Samsung Gear Apps: Tap to download and install apps for your Gear S2.

Connection Modes
• Bluetooth: Connected to the smartphone via Bluetooth.
• Connected remotely: Connected to the smartphone via the wireless network.
• Standalone: Not connected to the smartphone.

Sending a Message
1. From the Apps screen, tap Messages.
2. Tap More Options → New message.
3. Enter a recipient phone number or tap to add from contacts.
4. Tap to send.

Calls
Making a call
• Open the Apps screen, tap Phone to call a number and dial. Tap Call to end a call.
• Note: A Bluetooth connection between the Gear S2 and smartphone is not available. Ready to send.
• Note: Gear S2 does not support call forwarding.

Forwarding calls to the Gear S2
Set the smartphone to forward incoming calls to the Gear S2. Make sure the Gear S2 is connected to the smartphone.
1. From the Apps screen, tap Settings → Call → Call forwarding.
2. Tap Turn On → to automatically forward your calls to your Gear S2.

Connection Settings
To see your Connection settings on the Gear S2, press the Power/Home button, and then tap Settings → Connections.

Bluetooth
• Bluetooth headset: Search for Bluetooth headsets.
• Mobile Networks:
  • Gear network: Let the Gear S2 connect to the mobile network when not connected to a smartphone.
  • Mobile data: Turn mobile data on and off.
  • Data roaming: Use data connections when you are roaming.
  • Roaming network: Select a preferred network for roaming.

Wi-Fi
Let your Gear S2 connect to a Wi-Fi network to update news and weather when in standalone mode.

NFC
Make payments and check for events after downloading the required app.
• NFC: Activate the NFC feature to link your Gear S2 to a credit or debit card.

Airplane Mode
Turn off calls and messaging functions and mobile data and connectivity functions such as Wi-Fi.

Data Usage
Keep track of your data usage.

Location
Set the Gear S2 to allow apps to use your current location information.
